Let's Keep Things *Quiet!*

Let's face it we can all use less noise and distraction in our lives. AMC Acoustical's High Performance Sound Absorption Panels will capture and reduce Sound Reverberation in your space providing quieter & less distracting spaces such as Work & Office Spaces, Common Areas, Restaurants, Libraries, Lecture Halls, Auditoriums, Theaters, Studios & Concert Halls.

Why AMC Acoustical

- AMC is based Locally in Emmaus, PA. which allows us to provide you with the personal service you deserve. Face to face meetings in your office, our facility or on site to ensure clear communication on design, expectations, challenges, coordination with other trades and schedules.
- AMC offers generous payment terms based on AIA guidelines. This helps to free up cash flow for the balance of your project.
- AMC can adapt quickly to late design changes or site issues that typically arise.
- AMC provides shop drawings for every project.
- AMC will Laser Measure your site to ensure a perfect fit with little to no on-site modifications.
- AMC is a Custom Manufacturer of Acoustical Panels & Accessories enabling us to provide you with a "Custom Product" allowing for a totally "Unique Space".
- AMC offers complete installation service as part of the AMC Acoustics package. We guarantee that the same degree of attention to detail and quality of craftsmanship in the installation of your project as that of our precision fabrication and finishing.
- AMC provides a Project Manager to work with you to provide Clear Communication, Planning & Coordination to ensure your project arrives correctly and on time.

AMC | ACOUSTICAL™

AMC Acoustical offers you the following products which enables us to meet or exceed all NRC or SAA requirements for your project.

- Wood Veneer & P-Lam High Performance Acoustic Ceiling and Wall Panels Systems using MDF or FRP cores to Absorb sound and bring warmth & tranquility into your room. AMC offers a wide range of Wood Species, Finishes and Design options to create your own unique space.
- Fabric Ceiling & Wall Acoustical Panels AMC Acoustical can match any specified fabric. Our Fabric Panels offer High Performance Sound Absorption and add a “Softer Look” to your space.
- Custom Acoustical Linear Wood Ceiling & Wall Systems. Bring us your design and let AMC Acoustical bring it to reality. Linear Wood Systems add Design & Texture to your ceilings and walls while offering superior sound absorption to your room.
- Panelized Acoustical panels to fit your existing Ceiling grids. AMC Acoustical offers standard size acoustical panels that will fit your preexisting ceiling grid for ease of installation and less down time.
- Coffered Acoustic Panels will add Texture & Detail while reducing Reverberation in your space. AMC Acoustical can retrofit Panels to your existing Coffered Ceiling or Design Fabricate and Install a Custom Designed ceiling to meet your unique requirements.
- Reflective Ceiling Panels, to direct sound to your audience.
- Ceiling Sound Baffles & Blades, to absorb reverberation.
- Diffusers & Ceiling Clouds to manage background noise.
- Custom matching trim & accessories, to complete your project.
